- **Collapse Left Navigation** - This new feature allows you to collapse or expand the menus on the left side of the screen by either selecting the double arrow icon or by pressing the comma (,) shortcut key.

The screenshot shows the ONE TO ONE PLUS web application interface with the left navigation menu expanded. The menu items are visible on the left side of the screen. The main content area displays the 'Assets' management page, showing the same table of assets as the previous screenshot.

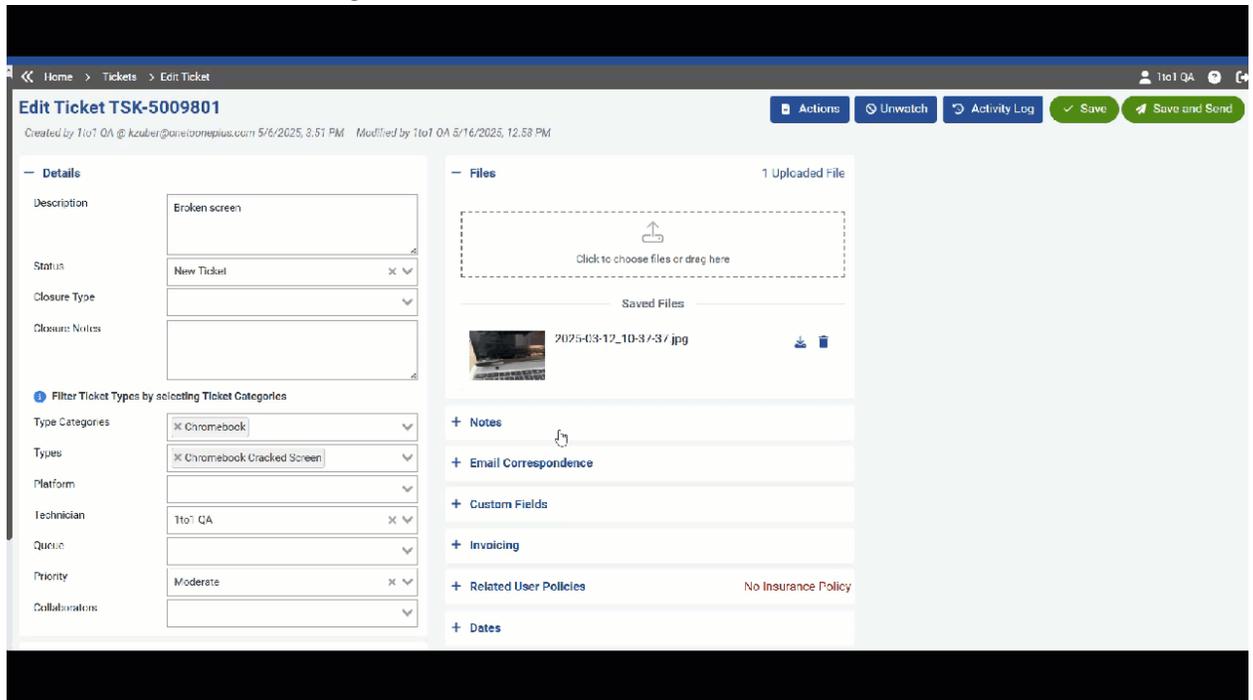

Bookmarks

- This new feature allows you to bookmark your favorite or frequently used screens and views by selecting the bookmark icon from the menu or the My Views screen.

Help Desk

- **Edit Ticket** – Images attached in a ticket as a file will allow you to preview it and zoom in on the image without exiting the ticket. Once you click on the image, you can use the scroll bar to increase or decrease the image size.

- **Edit Ticket** - The Notes template now preserves various text fonts and formatting within the Notes section of the ticket. Additionally, a scroll bar has been added to the right side of the window to accommodate notes that exceed the visible area.
